

# We Are Here For You

## Portable Oxygen and Suction for Homecare Preparedness

Precision Medical oxygen concentrators provide portable oxygen therapy in any situation. The compact devices run on rechargeable battery or any AC or DC power source.

PM4155

### Live Active Five

Live Active Five delivers high oxygen purity in a compact, ergonomic design. The powerful battery can easily be changed to a charged battery.

#### Features:

- 5 pulse flow settings
- One-touch start
- Single lithium-ion battery provides 6 hours of runtime
- Auto-breath safety feature
- Weights 5 lbs

PM4400

### EasyPulse TOC

EasyPulse TOC is the perfect balance of portable and stationary oxygen delivery.

#### Features:

- Pulse and continuous flow options
- More than 3 hours of runtime
- All-in-one system weighs less than 11.5 lbs

PM4100 Series

### EasyPulse POCs

EasyPulse 3 Liter and 5 Liter are designed and built around providing the highest oxygen purity for the longest period of time so patients can receive the therapy they require.

#### Features:

- 3 and 5 pulse flow setting models available
- More than 9 hours of portability
- Lightweight and easy to carry
- Requires no oxygen refills

# Aspirators

Our range of portable and stationary aspirators are designed to carry out a wide range of suction procedures with continuous and intermittent operation. The Precision Medical line of aspirators feature hospital-grade power cords, replaceable inline hydrophobic bacteria filters, and hold multiple size collection canisters including 800cc, 1200cc and 2000cc.

## Portable Suction

### EasyGoVac Aspirator

EasyGoVac Aspirator is the ideal suction unit for emergencies when external power sources are not available. The unit can be stored in its carrying case for extended periods and be ready for emergency preparedness.

#### Features:

- Continuous operation
- 51-483 mmHg vacuum range
- Lightweight at 9.6 lbs
- 2 hour battery runtime
- Low battery light
- Can be used with any standard 800cc canister
- Replaceable inline hydrophobic bacteria filter
- Carrying case for storing

PM65HG

### PowerVac+ Aspirator

PowerVac+ Aspirator a simple-to-use stationary aspirator with a durable design to withstand the rigors of hospital and homecare use.

#### Features:

- Continuous & intermittent operation
- 0-200 adjustable mmHg vacuum range
- Hospital grade two-mode vacuum regulator
- Can be used with any standard 2000cc canister
- Replaceable inline hydrophobic bacteria filter

# Oxygen Conserving Regulators

Precision Medical's oxygen conservers utilize our patented CMV Technology delivering a pulse algorithm waveform with superior trigger sensitivity and fast delivery time.

## EasyPulse5

EasyPulse5 Oxygen Conserving Regulator is the smallest and lightest oxygen conserver available weighing as little as 10 oz. A single dial control and ergonomically designed T-Handle/Hand Tight nut make setting and connecting EasyPulse5 easy for any oxygen user.

### Features:

- Available in CGA 870 Post Valve and CGA 540 Nut Style cylinder connections
- Pulse flow settings 1,2,3,4 and 5
- Continuous flow setting of 2 l/min
- CMV technology
- Lightweight at 10 oz
- No batteries required

## EasyPulse5+6

EasyPulse5+6 Oxygen Conserving Regulator has 6 continuous flow settings and pulse flow settings 1 through 5. The top-selling oxygen conserver from Precision Medical is ultra-lightweight and compact conserver with a conserving ratio of up to 5.7 to 1.

### Features:

- CGA 870 Post Valve connection
- Pulse flow settings 1,2,3,4 and 5
- Continuous flow settings 1,2,3,4,5 and 6 l/min
- CMV technology
- Lightweight at 9.9 oz
- No batteries required

Precision Medical products are sourced and made in America.
